School Principles for PE and Sport Premium Grant Spend

We provide the broad and balanced programme of physical education and we believe that every child should have activities designed to be enjoyable, purposeful and regular. Through providing positive experiences, a lifelong interest in physical activity is encouraged. The range of physical activities is wide and includes athletics, dance, games, gymnastics, swimming and outdoor education.

Sport Premium funding is allocated and targeted based on needs analysis which identifies priority classes, groups or individuals who will benefit from intervention in PE and Sport. Limited funding and resources means that not all children will be in receipt of sport premium interventions at one time.
